ABSTRACT

One of the major responsibilities of the National Center for Education Statistics (NCES) is to report on the condition of public elementary and secondary education in the United States. Information on the universe of schools and education agencies is collected annually in the NCES Common Core of Data (CCD) surveys. The surveys are completed from administrative completed from administrative records of the state education agencies by CCD coordinators. This directory is derived from the CCD data collection of March 1988. Listed in the directory are all reported public elementary/secondary education agencies in the United States and the outlying areas of American Samoa, Guam, Northern Marianas, Puerto Rico, and the Virgin Islands. A complete entry for an agency includes the following information: (1) state; (2) name of (6) student membership code; and (7) metropolitan status code. The prefatory material contains a brief introduction, information on using the directory, definitions of types of agencies, a list of abbreviations used, education agency enrollment size codes, and six statistical summary tables. "The purpose of the Center shall be to collect, and analyze, and disseminate statistics and other data related to education in the United States and in other nations."—Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Foreword

This directory is part of the continuing series of education directories of the National Center for Education Statistics. We issue it to provide a current listing of local public school systems and other education agencies to the many agencies and organizations which deal with such public school systems.

Paul Planchon, Director
Elementary/Secondary Education
Statistics Division

We look forward to continued comment and expressions of need from the education community to the end that our products may be increasingly useful.

Suzanne E. Triplett, Chief
General Surveys and
Analysis Branch

Acknowledgments

Common Core of Data Coordinators, designated by the Chief State School Officers as official State liaisons with the National Center for Education Statistics (NCES), are the primary providers of information presented in the document. *The Directory of Public Elementary and Secondary Education Agencies: Spring 1988* could not have been developed without substantial efforts by these Coordinators. There are others in each State who spent hours assisting the Common

Core of Data Coordinators in presenting the information to NCES. Although we cannot list the names of all of these people, we wish to thank them for their invaluable assistance.

Below is a list of all Common Core of Data Coordinators and Chief State School Officers. A list of State education agency addresses is presented as an appendix to this directory.

State	Common Core of Data Coordinators	Chief State School Officers
Alabama	Robert E. Lockwood	Wayne Teague
Alaska	Joanne Van Patten	William Demmert
Arizona	Annette Berger	C. Diane Bishop
Arkansas	Robert Shaver	Ruth Stelle

Universe of Public Elementary and Secondary Education Agencies: Spring 1988	1
State Education Agency Addresses	259

Introduction

One of the major responsibilities of the National Center for Education Statistics (NCES) is to report on the condition of public elementary and secondary education in the United States. To do this, NCES collects from State education agencies information about the universe of public elementary/secondary schools and education agencies in the 50 States, the District of Columbia and the 5 outlying areas: American Samoa, Guam, Northern Marianas, Puerto Rico, and the Virgin Islands.

Information on the universe of schools and education agencies is collected annually in the NCES Common Core of Data (CCD) surveys. The surveys are completed from administrative records of

the State education agencies by Common Core of Data Coordinators who are designated by their Chief State School Officers as official State liaisons with the Center.

The *1988 Directory of Public Elementary and Secondary Education Agencies* is derived from the CCD local education agency universe data collection of March 1988. The *Directory* lists all reported public elementary/secondary education agencies in the States, District of Columbia, and five outlying areas, by type of agency. Statistical summary tables are presented in this introduction to the directory.

Using the Directory

A complete entry for an agency includes the following information:

- State
- Name of agency
- Mailing address including:
 - Street or P.O. Box
 - City of mailing address
 - ZIP code
- Telephone number
- Name of County
- Grade span
- Student membership code
- Metropolitan status code

State

The State in which an agency is physically located is identified in the upper-left-hand corner of the page.

Name of Agency

This column lists the names of education agencies providing free public elementary and secondary education in alphabetical and/or numerical order, by type of agency, within State or State-level jurisdiction. The listed agency name is the name commonly used within the State. It may differ from the legal name of the education agency.

Street or P.O. Box of Mailing Address

This is the post office box number, rural route number, or the building's block number and name of the street where mail to the agency's chief executive officer should be addressed. Here, as in other sections providing location information, the mailing address may not correspond with the actual physical location of the agency and may even be in a State other than that served by the agency.

City of Mailing Address

This column provides the name of the city used in the mailing address of the agency's chief executive officer. If a State name abbreviation appears in this column, then the mailing address of the agency is located in the State listed rather than in the State actually served by the agency. The street address, the city of mailing address, and ZIP code agree with this convention.

ZIP Code

The ZIP code is assigned by the U.S. Postal Service to aid in the delivery of mail to the agency's chief executive officer. The first digit is a regional identifier, the next 2 digits identify the post office, and the next 2 digits identify the block. Where assigned, an additional 4 digits identify the street, building, and floor.

Telephone Number

The entry in this column lists the 3 digit area code, 3 digit exchange code, and 4 digit local telephone number of the administrative office of the agency's chief executive officer.

Name of County

The entry in this column is the county where the chief executive officer of the agency maintains the operational base.

Grade Span

The entries of this column identify the lowest and highest grades actually served by the agency in the range from prekindergarten (PK) through grade twelve (12).

Metro Status Code (MSC)

This column presents a single-digit code which relates to the location of the agency with reference to one of the 329 Metropolitan Statistical Areas (MSA) determined by the Bureau of Census during the 1980 *Decennial Census*.

Changes in population which have occurred since 1980 are not reflected in this directory.

The three codes used are:

- 1—The agency serves a *Central City* of an MSA.
- 2—The agency serves an MSA but not primarily its *Central City*.
- 3—The agency is not located in an MSA.

Education Agencies by Grade-Span Pattern by State

The agencies that constitute the universe of elementary and secondary agencies displayed a vast diversity of patterns of lowest to highest grade levels spanned by their instructional/support/service programs. In the main body of the directory, grade span is represented by a *five-character*

code with the general form LL-HH; where LL represents the lowest grade level offered by the agency's schools and HH represent the highest grade level offered. *Three-letter codes* are used to describe *grade span* when numerical designations are unsuitable:

PK= Prekindergarten
KG= Kindergarten
UG= Ungraded

Four grade-span patterns were used that require explanation:

- (1) 00-00: This designation identifies agencies that have no responsibility for instructing students. The most prevalent of these are supervisory union administrative centers, special-purpose agencies that provide the services of a common superintendent of schools and business manager to clusters of small agencies.

- (2) UG-UG: This category is used to indicate that all of the students of an agency are ungraded. This is typically the case with regional educational service agencies (RESA).

- (3) SP-SP: If all of the students of an agency are enrolled in special-education programs, this designation is utilized.

- (4) – When the actual grade span served by an agency was unreported by the State education agency (SEA), the symbol consisting of a single hyphen was used.

Summary Tables

An overview of the patterns of elementary/secondary education agencies within the reporting States can be gained by an examination of the six summary tables provided.

Definitions of Types of Agencies

- **Regular school districts** operate elementary and/or secondary schools and sometimes include special and vocational education in a comprehensive educational setting. In some cases, these education agencies contract with other agencies to provide services rather than operating schools themselves.
- **Supervisory union administrative centers** are agencies that provide administrative services for a group of small school districts. Terminology varies among reporting State education agencies. [For example, in the State of Nebraska the county superintendent provides administrative services to all school districts within his or her county that have less than seven teachers. In that State the supervisory unions are called "county administered systems."]
- In this **Directory**, the administrative center and the related components of a supervisory union are listed separately as a consequence of organizing the agency listings in alphabetical order within type of agency. The components of a single supervisory union can generally be associated with the administrative center through the matching of mailing addresses.
- **Regional educational service agencies (RESA)** provide special services to other public elementary and secondary education agencies.
- **State-operated agencies** that operate elementary and secondary education programs are listed if reported by CCD Coordinators.
- **Federally operated agencies** that operate elementary and secondary education programs are listed if reported by CCD Coordinators.
- **Other agencies** that operate elementary and secondary education programs are so designated by State CCD Coordinators who determine that no other type designation is appropriate.
- **Agencies having student membership** include all regular school districts, supervisory unions and their components, regional education service agencies, State-operated agencies, Federally operated agencies, and other agencies for which an enrollment of one or more students was reported by the State CCD Coordinator for the 1987-88 school year.
